The Following Is a List of my Favorite FREE Plugins For Mixing & Mastering

Thank you for downloading this e-Book! I hope these plugins inspire you to create incredible music that you will cherish forever.

Please share your favorites from this list with the Home Studio Fast Track Facebook Community!

<https://bit.ly/FB-HSFT>

COMPRESSORS I

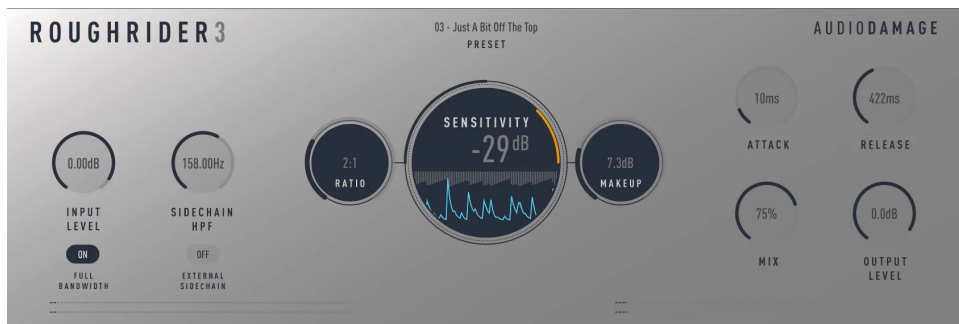

1. Tokyo Dawn Records (TDR) - Kotelnikov

Great mastering grade compressor!

<https://www.tokyodawn.net/tdr-kotelnikov>

2. AudioDamage - RoughRider 3

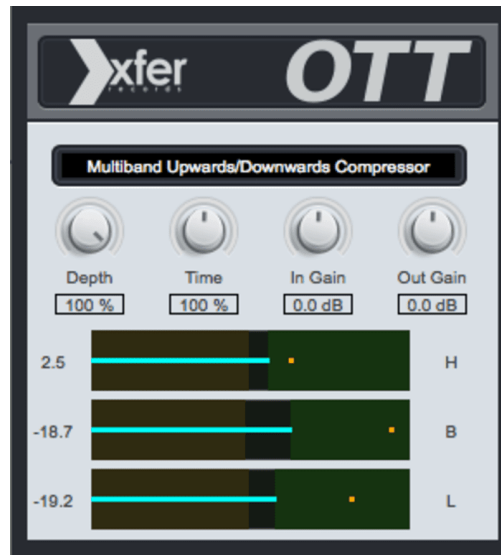

All around compressor

<https://www.audiodamage.com/pages/free-downloads>

COMPRESSORS 2

3. Xfer Records - OTT

Great for drums and EDM
<https://xferrecords.com/freeware>

4. Klanghelm - MJUC Jr.

Vari-Mu compressor - great for glue and leveling group busses
<https://klanghelm.com/contents/products/MJUCjr.php>

COMPRESSORS 3

5. Auburn Sounds - Couture

Level independent dynamics control

<https://www.auburnsounds.com/products/Couture.html>

EQs I

1. Tokyo Dawn Records (TDR) - Nova

Powerful dynamic EQ!
<https://www.tokyodawn.net/tdr-nova/>

2. AudioThing - Blindfold EQ

EQ that doesn't have any numbers visible! You must use your ears.
<https://www.pluginboutique.com/product/2-Effects/16-EQ/6070-Blindfold-EQ>

EQs 2

3. Kiive Audio - Warmy EP1A V2

A great PulTec style EQ. Great for tone shaping.

<https://www.kiiveaudio.com/plugins/Warmy-EP1A-V2-p320123815>

Guitar Amp Simulators I

1. ML Sound Lab - Amped Roots

Great sounding distortion amp (5150iii style) with IR loader
<https://ml-sound-lab.com/products/amped-roots>

2. Audiority - L12X Solid State Amplifier

Lower Gain Rock Amp Sim
<https://www.pluginboutique.com/product/2-Effects/18-Amp-Simulator/6084-L12X-Solid-State-Amplifier>

Guitar Amp Simulators 2

3. LePou - Various Guitar Amps

These amps STILL sound great 10 years later.

NOTE: Only 32-bit plugins available so may not work in your DAW.

<https://plugins4free.com/dev/258/>

Guitar Amp Simulators 3

4. Ignite Amps - Emissary

High gain amp. Great for hard rock and metal.

<http://www.igniteamps.com/#emissary>

5. IK Multimedia - Amplitube 5 CS

Several amps, reverb, FX, microphone and guitar cabinet.

Good clean guitar tones!

<https://www.ikmultimedia.com/products/ampltube5cs/?pkey=ampltube-5-cs>

Bass Amp Simulators

1. Ignite Amps - SHB-1

Adds some grit to your bass guitars.
<https://www.igniteamps.com/#shb-1>

2. TSE Audio - BOD v3

Sansamp model that sounds really good!
<https://www.tseaudio.com/software/tseBOD>

Guitar Cabinet Impulse Response (IR) Loader I

1. Ignite Amps - NadIR

Versatile cabinet impulse loader. Two channels
<http://www.igniteamps.com/#nadir>

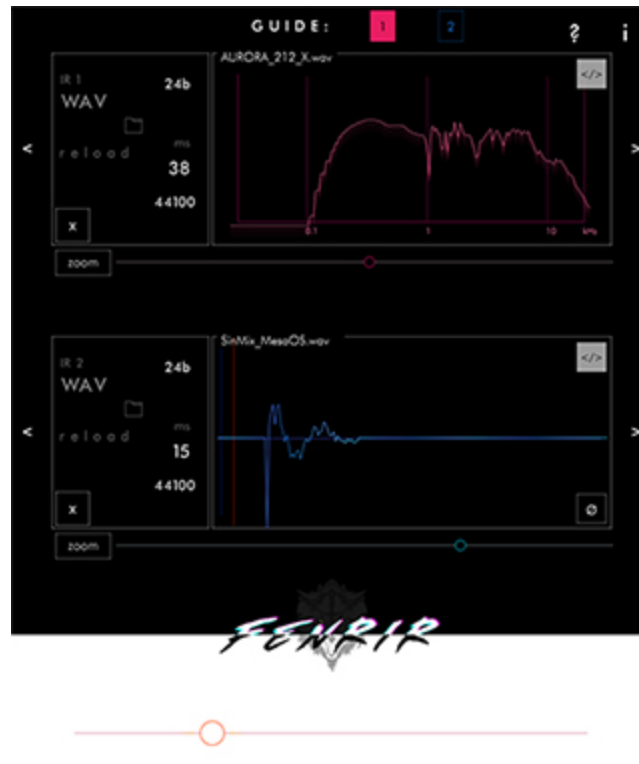

2. Ignite Amps - Libra

Advanced, multichannel impulse response loader.
<https://www.igniteamps.com/#libra>

Guitar Cabinet Impulse Response (IR) Loader 2

3. Aurora DSP - Fenrir

Simple drag and drop impulse loader
<https://auroradsp.com/fenrir>

Saturation & Distortion I

1. Softube - Saturation Knob

Great for fattening up drums and bass and thickening vocals
<https://www.softube.com/saturationknob>

2. Bedroom Producers Blog - Saturator

Simple, CPU efficient distortion/saturator.
<https://bedroomproducersblog.com/free-vst-plugins/bpb-saturator/>

Saturation & Distortion 2

3. ChowDhury DSP - Chow Tape

Great for vibey tape saturation
<https://chowdsp.com/products.html>

4. Wave Arts - Tube Saturator Vintage

Great triode tube emulation!
<https://wavearts.com/products/plugins/tube-saturator-vintage>

Saturation & Distortion 3

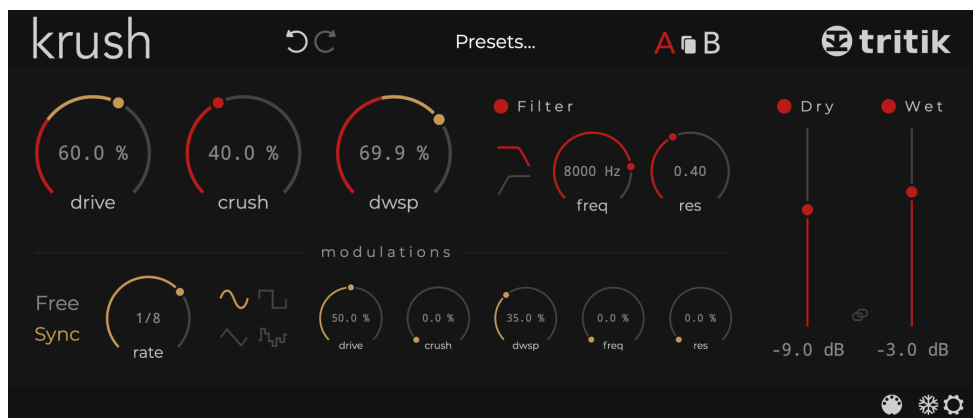

5. Klanghelm - IVGI Saturation and Distortion

Everything from subtle distortion and saturation that sounds great on a mixbus to dirty gritty distortion for individual tracks.

<https://klanghelm.com/contents/products/IVGI.php>

6. Tritik - Krush

Bitcrusher and Distortion In One! Unique Textures

<https://www.tritik.com/product/krush/>

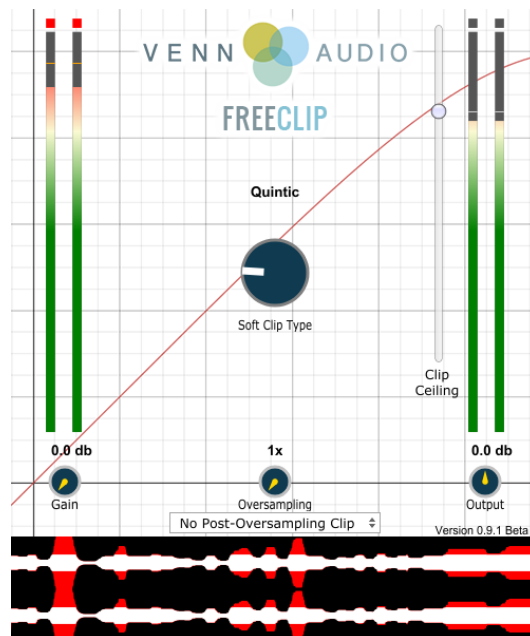

Clippers and Limiters I

1. TDR - VladG No6

Very Powerful Limiter For Mastering Situations
<https://www.tokyodawn.net/vladg-limiter-n6/>

2. Venn Audio - Free Clip

MY GO TO CLIPPER. Super clean (recommend using oversampling!)
<https://www.vennaudio.com/free-clip/>

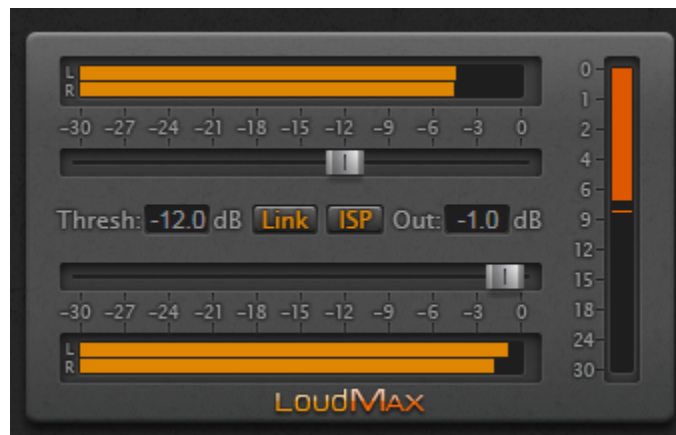

Clippers and Limiters 2

3. GVST - GClip

Great Clipper with Soft Clipping Function
<https://www.gvst.co.uk/gclip.htm>

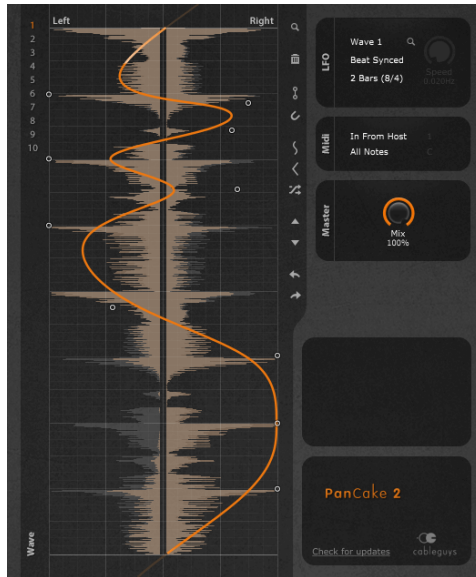

4. Thomas Mundt - Loudmax

Similar to Waves L1 and L2. Clean brickwall limiter.
<https://www.kvraudio.com/product/loudmax-by-thomas-mundt>

Effects I

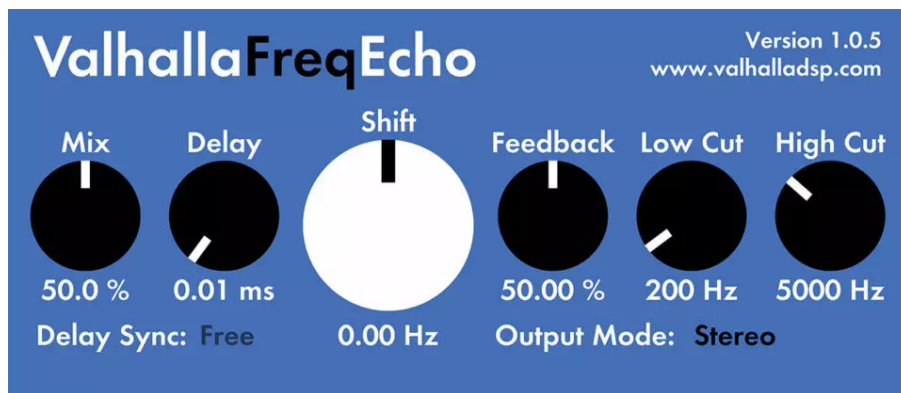

1. Cableguys - Pancake 2

Great Substitute for SoundToys PanMan. Cool Panning Effects!

<http://www.cableguys.com/pancake.html>

2. Valhalla - FreqEcho

Bode-Style Frequency Shifter + Analog Echo Emulation create surprising sonic effects.

<https://valhalladsp.com/shop/delay/valhalla-freq-echo/>

Effects 2

3. iZotope - Vinyl

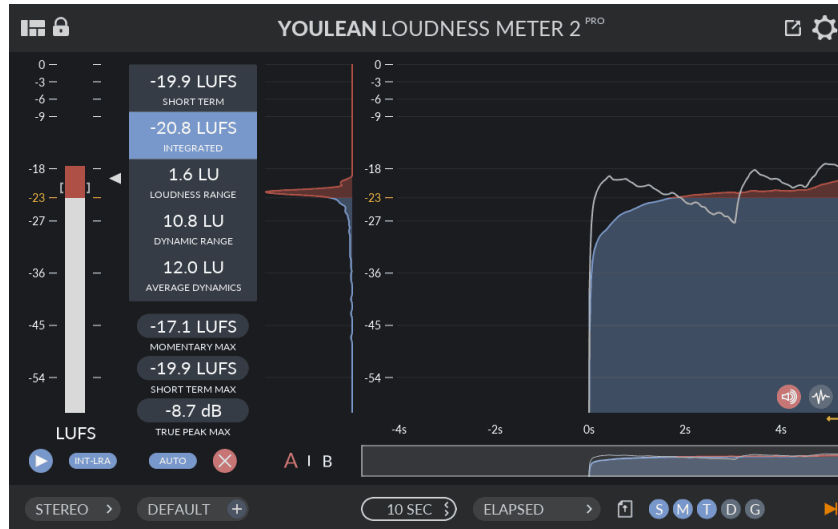

Simulates the dust, scratches, and warp of a worn record and the electrical and mechanical noise of a turntable.

<https://bit.ly/3CUzDTu>

Spectral Analyzers and Tools I

1. Youlean - Loudness Meter 2 Free

Great free tool that gives you accurate metering based on ITU-R BS.1770
<https://youlean.co/youlean-loudness-meter/>

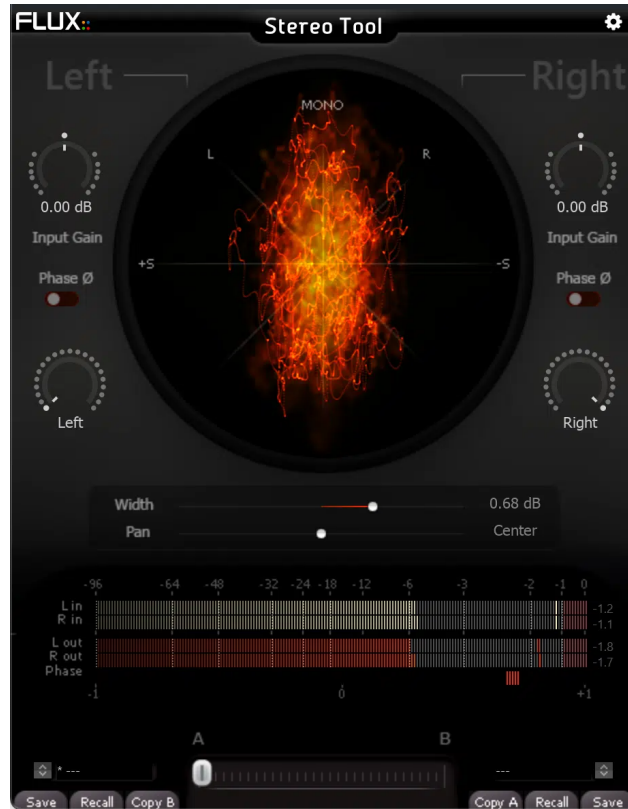

2. Voxengo - SPAN

VERY accurate and customizable Spectral Analyzer.
<https://www.voxengo.com/product/span/>

Spectral Analyzers and Tools 2

3. Flux Audio - StereoTool v3

Excellent Goniometer (aka vectorscope). Helps to identify panning and phase problems in your songs.

<https://www.flux.audio/project/stereo-tool-v3/>

De-Essers

1. Technivation - T-De-Esser-Plus

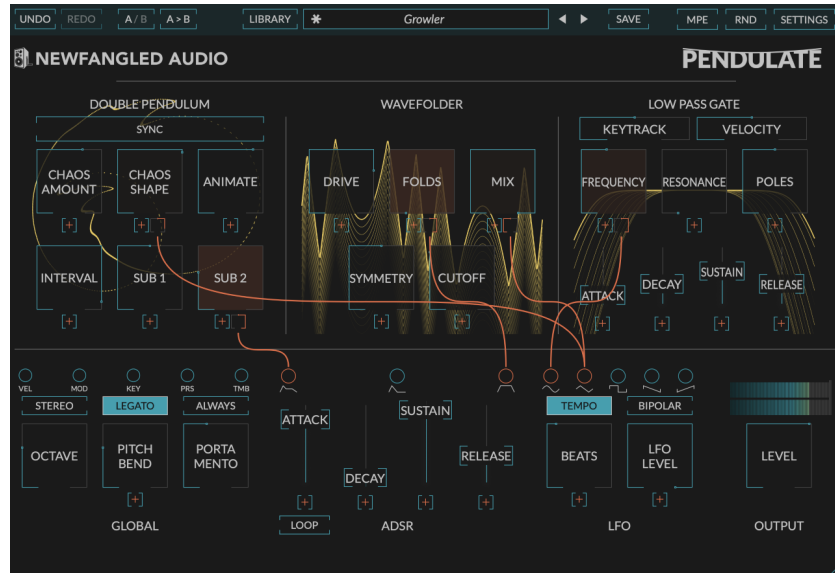

Powerful De-Essing tool that works differently than other De-Essers I've used before.

<https://techivation.com/t-de-esser-plus/>

Synths I

1. Newfangled Audio - Pendulate

A chaotic mono-synth for unique and aggressive textures.

<https://www.eventideaudio.com/plugin-ins/pendulate/>

2. Vember Audio - Surge

Incredibly powerful free subtractive synth.

<https://surge-synthesizer.github.io/>

Synths 2

3. IK Multimedia - Syntronik 2 CS

Free virtual synthesizer with 100 instrument presets and 2.4 GB of sound content.
<https://www.ikmultimedia.com/products/syntronik2/>

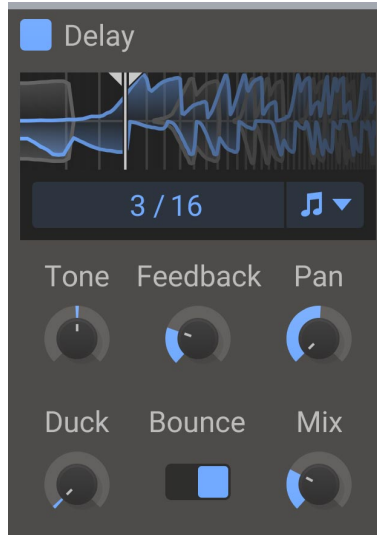

4. ChowDSP - Chow Kick

kick drum synthesizer based on physical modeling of old drum machine circuits.
<https://chowdsp.com/products.html>

Delays and Reverbs I

1. KiloHertz - Delay

Easy To Use Delay With Ducking Feature
<https://kilohearts.com/products/delay>

2. TAL - Reverb 4

Versatile Algorithmic Reverb
<https://tal-software.com/products/tal-reverb-4>

Delays and Reverbs 2

3. Valhalla - Super Massive

Simple and Lush Reverb for HUGE Soundscapes - One of my Favs!
<https://valhalladsp.com/shop/reverb/valhalla-supermassive/>

Free Samples I

1. The Metal Kick Drum

Aggressive metal and rock drum samples (not just kicks)
<https://www.themetalkickdrum.com>

2. ProducerSphere Best Free Samples

Lot's of samples for making beats (kicks, 808s, snare, chants etc.)
<https://bit.ly/3oShIIIH>

Free Samples 2

3. Modern Metal Songwriter Post-Production Sample Pack

Lots of good samples including impacts, subdrops, ambience, and more.
<https://www.modernmetalsongwriter.com/blogs/free/free-post-fx>

Drum Sample Player/Sampler

1. MT-PowerDrumkit 2

A multi-layer drum sampler with free drum samples and grooves. Great substitute for Superior Drummer, Steven Slate Drums, EZ Drummer, GGD, etc.

I can't believe this is free.

<https://www.powerdrumkit.com/>

2. Steven Slate Drums 5.5 Free

Very good sounding kit. The free version is somewhat limited in drum sounds.

<https://stevenslatedrums.com/ssd5/#SSD5FREE>

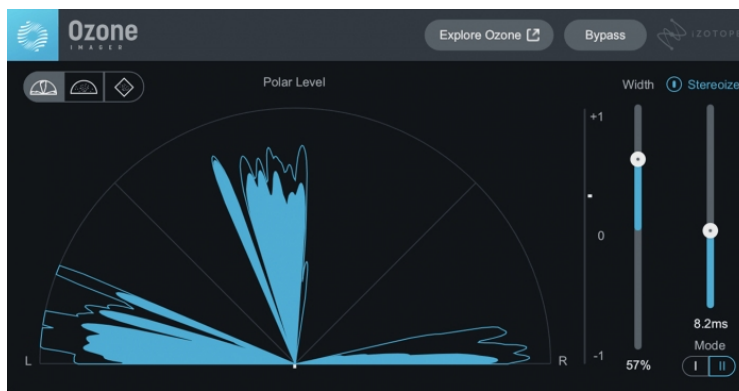

Stereo Enhancers I

1. Voxengo - MSED

Great Substitute for Waves Center! Control Mid/Side Volume.
<https://www.voxengo.com/product/mсед/>

2. iZotope - Ozone Imager 2

Simple Audio Widening Tool. Can be used During Mastering.
<https://bit.ly/3Os6jvV>

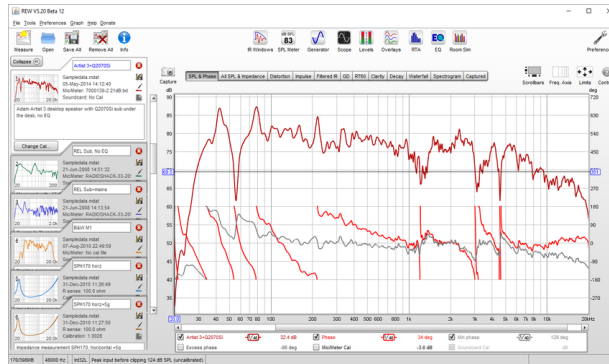

3. Polyverse - Wider

Phase Coherent Widening Tool. Good MIXING tool.
<https://bit.ly/3Kc82CK>

Room Analysis and Correction

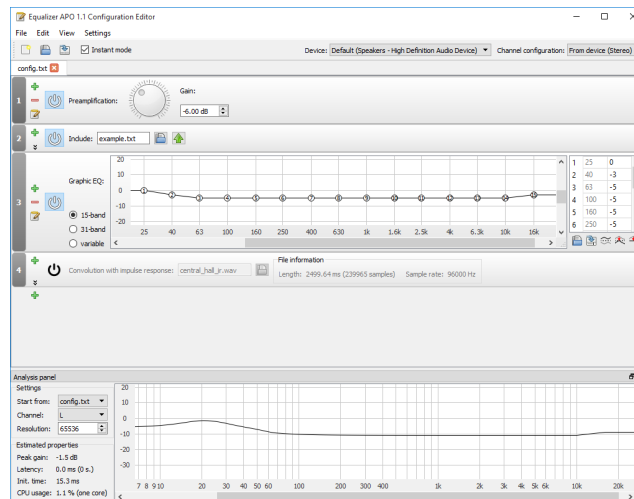

1. Room EQ Wizard (REW)

Powerful room analysis software to measure the EQ response of your studio and so much more. Very powerful software.

<https://www.roomeqwizard.com/>

2. Equalizer APO

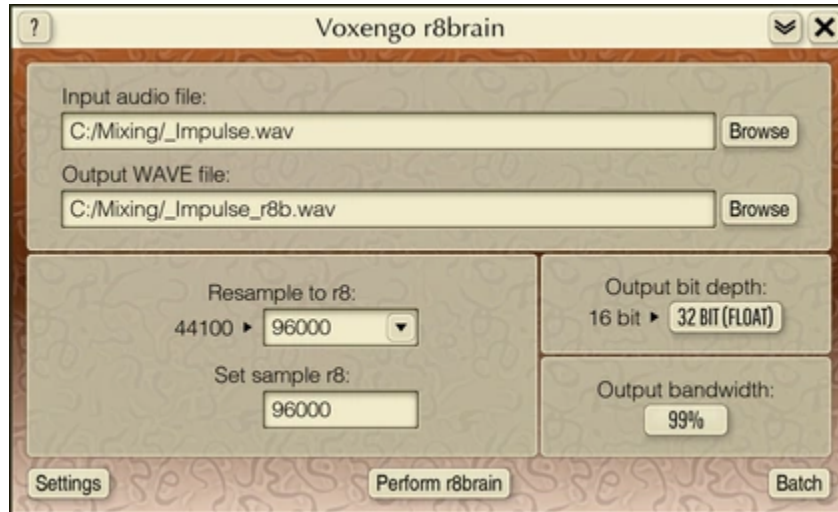

A system wide equalizer to correct your listening environment. Works perfectly with REW above to generate a flat listening environment.

Great Sonarworks replacement.

<https://sourceforge.net/projects/equalizerapo/>

Sample Rate Conversion

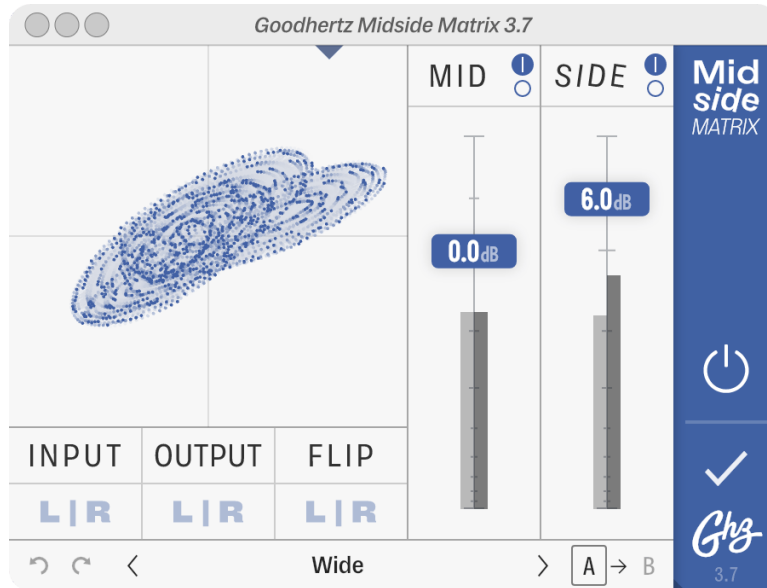

1. Voxengo - r8 Brain

SUPER Clean Standalone Sample Rate and Bit Depth Converter
<https://www.voxengo.com/product/r8brain/>

Mid Side Encoder/Decoder

1. Goodhertz - Midside Matrix

Easy to use Mid/Side encoder/decoder. Perfect for unlocking Mid/Side processing in any DAW.

<https://goodhertz.com/midside-matrix/>

2. Voxengo - MSED

Another, slightly more complicated Mid/Side encoder decoder. Has additional features for more options. <https://www.voxengo.com/product/mсед/>

Helpful Resources

1. **Audio Mix Club**

A private audio mixing community to get feedback on your mixes. Has monthly mixing challenges to help you grow as a mixer and free downloadable multitracks to practice with! I'm part of this community - come hang out!
